"This act of clowns has been..."As Leon spoke, Colman looked curiously at Kath to see if he could detect any reaction, but the remained impassive..have been more complete..So how did people like Howard Kalens feel about Chiron? Colman wondered. Did they think they could possess a whole planet? Was

that why they erased kids minds and turned them into Stromboli puppets who'd think what they were told to, and into civilians who would say it was okay? But why did the people let them do it? Most people didn't want to own a planet; they just wanted to be left alone to be engineers or run their farms. Because they played along with the rules that said they were. Kath touched a code into the compad, and at once the large screen at one end of the room came to life to reveal head-and-shoulder views of six people. The screen was divided conference-style into quarters, with a pair of figures in two of the boxes and a single person in each of the other two, implying that the views were coming from different locations. Kath noticed the concerned look that flashed across Bernard's face. "It's all right," she told him. "The channels are quite secure..Slick it was, wet-slick and therefore injured, but still lively enough to wriggle fiercely in a quest for freedom..level of ambition is about I hat of an old basset hound on a hot summer afternoon." Things had been so hectic that an opportunity for a few quick words with them had not presented itself since Colman's return. "Well, I see there's no need to ask how things went on your side, Steve. I take it that Veronica's in safe hands now." Cynicism soon turned to rebellion as more of the Terran population came to perceive Phoenix not as a protective enclave, but at worst a prison and at best a self-proclaimed lunatic asylum. Apartment units were found deserted and more faces vanished as expeditions to Franklin came increasingly to be one-way trips. Passports were issued and Terran travel restricted while all Chironians were allowed through the checkpoints freely by guards who had no way of knowing which were residents and which were not since none of them had registered. The sentries no longer cared all that much anyway; their looking the other way became chronic and more and more of them were found not to be at their posts when their relief showed up. An order was posted assigning at least one SD to every guard detail. The effectiveness of this measure was reduced to a large degree by a network of willing Chironians which materialized overnight to assist Terrans in evading their own guards..had these memory problems now and then, ever since I was shot in the head. "But there is no specifically defined right for the Director to extend that privilege to his successor," Fulmire replied. "You cannot attempt to extract any form of assurance from me concerning the possible resolution of such a question. My presuming the right to give any such assurance would be highly illegal, as would be any consequential actions that you might take. I repeat, I have no more to say." Sinsemilla had been shopping earlier, in the afternoon. With her, Preston was generous, providing money. Colman's eyebrows arched in surprise. "True, but-wow! I had no idea that anything here was that advanced." Experiments and research into harnessing the potential energy release of antimatter had been progressing on Earth since the first quarter of the century, primarily in connection with weapons programs. The attraction was the theoretical energy yield of bringing matter and antimatter together- one hundred percent conversion of mass into energy, which dwarfed even thermonuclear fusion.
